

Netsu Sokutei — Instruction to Authors

"Netsu Sokutei" ("Calorimetry and Thermal Analysis") is intended to provide a forum for discussion of research subjects in the areas of calorimetry, thermal analysis, and other techniques used to obtain various thermodynamic quantities. Contribution to the journal is open to the members of The Japan Society of Calorimetry and Thermal Analysis, as well as non-member authors.

There are two categories in the contents of the journal:

- (A) Paper, Note, Review, and Course: Their manuscripts are subjected to review by referee(s) chosen by the editorial board. The manuscript length should be within 8 printed pages for Paper, Review, and Course, and 3 printed pages for Note.
- (B) Report and other articles: They are published at the discretion of the editorial board. The manuscript length should be within 5 printed pages for Report of the annual meeting, 2 printed pages for Report of the other meetings or workshops, 1 page for Lounge, Topics, and Speaker's Corner.

SUBMISSION

- (1) Manuscripts should be submitted as a Microsoft WORD file by e-mail attachment. The e-mail should be sent to the following e-mail address of the Editorial Board: edit@netsu.org
When the e-mail submission is difficult, contributions should be submitted in duplicate, one original print and one copy, with a file including the text data of the manuscripts stored in an electric media (CD-R etc.), and sent to the following address.
Netsu Sokutei, Editorial Board,
The Japan Society of Calorimetry and Thermal Analysis
Miyazawa Building 601, 1-6-7 Iwamoto-cho,
Chiyoda-ku, Tokyo 101-0032, JAPAN
- (2) Submission must be made under guarantee that the manuscript has not been published previously and is not currently under consideration for publication elsewhere.
- (3) The contribution should be as concise as possible and written in English or Japanese.
- (4) The manuscript for Help-Key-Words should be provided with up to 100 words for Review.
- (5) The manuscript for Author(s) Introduction should be provided for Paper, Note, Review, and Course.

MANUSCRIPT PREPARATION

- (1) The text should be typed double-spaced and single-sided on one side of each sheet, on A4 (21 cm × 29.7 cm) or US letter-size paper (8.5" × 11") with margins of 3 cm on all sides. All sheets should be numbered, in sequence, beginning with the title and abstract page.
- (2) The first page of the manuscript should contain only the expected category, the title of the contribution, the author's name(s) and the address(es). A "running title" should be included when the full title is longer than 12 words.
- (3) An abstract should be provided with up to 100 words for Note, and up to 200 words for Paper, and Reviews. A list of up to five keywords (or short phrases) should be provided below the abstract.
- (4) Figures, Tables, References, and symbols.
 - a) The location of Figures and Tables should be indicated in the manuscript (it should be on the margin in the case of hand writing). They should be numbered in Arabic numerals (ex. **Fig.1**, **Table 1**).
 - b) Figures should be prepared in a good quality suitable for direct reproduction, taking into account the fact that the lateral size in print will be less than 7 cm. Photographs for halftones should be glossy and show rather strong contrast.
 - c) Figure captions should be typed on a separate sheet.
 - d) Each Table should be typed on a separate sheet.
 - e) References and Footnotes should be cited consecutively in the text by superscript numeral with a closing parenthesis, and should be listed in the order of their citation at the end of the paper.
 - f) The symbols, terminology, and units recommended by the IUPAC should be used throughout the manuscript.
 - g) In general, the author(s) are asked to adhere closely to the style and conventions of the journal, as introduced above and as exemplified in the recent issues.
 - h) Authors must obtain written permission from the original author and publisher for the use of figures and tables already published.

REVISION, COPYRIGHT, AND OTHERS

- (1) When revision is required as a result of review, the revised manuscript should be submitted within 2 months.
- (2) The copyright to the article accepted for publication belongs to the Japan Society of Calorimetry and Thermal Analysis.
- (3) There are no page charges.
